Delores Brown
Chief Office of Environmental Compliance
California Department of Water Resources
P.O. 942836, Sacramento, CA 94236

Dear Ms. Brown,

The Irwindale Chamber of Commerce has grown increasingly concerned about the decline in the health of the Sacramento-San Joaquin Delta and the deteriorating reliability of this key water supply for two-thirds of all California's residents as well as for half of the nation's produce.

We commend the Bay Delta Conservation Plan's collaborative effort among water agencies, environmental organizations, state and federal agencies. The Plan is essential to mapping out a comprehensive conservation plan and a solution for the Delta. The key to a reliable water system is a restored Delta ecosystem and a rebuilt water conveyance system.

Irwindale Chamber of Commerce supports the BDCP's environmental review process, an essential component to the success of the ultimate plan. We applaud the goal of the plan to place the environmental health of the Delta and the reliability of our state's water system on equal footing.

All of us who live and work in California depend on a reliable and sufficient water supply. We need to restore the Delta ecosystem and to rebuild the conveyance system. The success of the BDCP is essential to the continued economic health of California.

Sincerely,

Lisa Bailey
President and CEO
